

NOTICE OF OFFICE OF MANAGEMENT AND BUDGET ACTION

Diana Hynek 12/15/2003
Departmental Paperwork Clearance Officer
Office of the Chief Information Officer
14th and Constitution Ave. NW.
Room 6625
Washington, DC 20230

In accordance with the Paperwork Reduction Act, OMB has taken the following action on your request for the extension of approval of an information collection received on 10/16/2003.

TITLE: Information for Share Transfer in the Wreckfish Fishery

AGENCY FORM NUMBER(S): None

ACTION : APPROVED WITHOUT CHANGE

OMB NO.: 0648-0262

EXPIRATION DATE: 12/31/2006

BURDEN:	RESPONSES	HOURS	COSTS(\$,000)
Previous	4	1	0

19. Certification for Paperwork Reduction Act Submissions

On behalf of this Federal Agency, I certify that the collection of information encompassed by this request complies with 5 CFR 1320.9

NOTE: The text of 5 CFR 1320.9, and the related provisions of 5 CFR 1320.8(b)(3), appear at the end of the instructions. *The certification is to be made with reference to those regulatory provisions as set forth in the instructions.*

The following is a summary of the topics, regarding the proposed collection of information, that the certification covers:

- (a) It is necessary for the proper performance of agency functions;
- (b) It avoids unnecessary duplication;
- (c) It reduces burden on small entities;
- (d) It used plain, coherent, and unambiguous terminology that is understandable to respondents;
- (e) Its implementation will be consistent and compatible with current reporting and recordkeeping practices;
- (f) It indicates the retention period for recordkeeping requirements;
- (g) It informs respondents of the information called for under 5 CFR 1320.8(b)(3):
 - (i) Why the information is being collected;
 - (ii) Use of information;
 - (iii) Burden estimate;
 - (iv) Nature of response (voluntary, required for a benefit, mandatory);
 - (v) Nature and extent of confidentiality; and
 - (vi) Need to display currently valid OMB control number;
- (h) It was developed by an office that has planned and allocated resources for the efficient and effective management and use of the information to be collected (see note in Item 19 of instructions);
- (i) It uses effective and efficient statistical survey methodology; and
- (j) It makes appropriate use of information technology.

If you are unable to certify compliance with any of the provisions, identify the item below and explain the reason in Item 18 of the Supporting Statement.

**SUPPORTING STATEMENT
INFORMATION NEEDED FOR SHARE TRANSFER
IN THE WRECKFISH FISHERY
OMB NO. 0648-0262**

A. JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary.

The legislative authority to collect data from the various sectors of the economy that harvest marine resources in the exclusive economic zone is the Magnuson-Stevens Fishery Conservation and Management Act (Act). The individual transferable quota (ITQ) system as defined at CFR 622.15 (attached) for the Wreckfish fishery is based on percentage shares. The size of a person's percentage share and the available total allowable catch (TAC) determine how many pounds of wreckfish a shareholder may harvest each year. Percentage shares in the Wreckfish fishery are issued for an indefinite duration and can be sold. Sales of percentage shares are not final until the sale had been recorded by the Regional Administrator, Southeast Region, NMFS.

2. Explain how, by whom, how frequently, and for what purpose the information will be used. If the information collected will be disseminated to the public or used to support information that will be disseminated to the public, then explain how the collection complies with all applicable Information Quality Guidelines.

This submission is to request the extension of the Wreckfish share transfer data collection program. The purpose of this data collection is to provide the information necessary to transfer ownership of percentage shares. The transfer form is printed on the back of the percentage shares certificate. With each transfer of ownership, the certificate will be reissued. The certificate identifies the seller, but the buyer's name, address, corporate (employer's) Federal tax identification number, and telephone number must be provided. The sale price is necessary for economic analysis. The signatures of buyer, seller, and witness will secure the transaction. If the party purchasing shares is a shareholder, the share certificate must be surrendered so that it can be reissued.

It is anticipated that the information collected will be disseminated to the public or used to support publicly-disseminated information. NOAA Fisheries will retain control over the information and safeguard it from improper access, modification, and destruction, consistent with NOAA standards for confidentiality, privacy, and electronic information. See response #10 of this Supporting Statement for more information on confidentiality and privacy. The information collection is designed to yield data that meet all applicable information quality guidelines. Prior to dissemination, the information will be subjected to quality control measures and a pre-dissemination review pursuant to Section 515 of Public Law 106-554.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological techniques or other forms of information technology.

The transfer process requires the signatures of witnesses. With only four respondents, it is not cost-effective to set up an information technology system to handle this.

4. Describe efforts to identify duplication.

NOAA Fisheries is confident that it is aware of similar collections if they exist. The information proposed to be collected is not being collected elsewhere; therefore, this data collection would not cause duplication. This is the only program designed to provide the data necessary to transfer percentage shares.

5. If the collection of information involves small businesses or other small entities, describe the methods used to minimize burden.

Because all respondents are considered small businesses, separate requirements based on size of business have not been developed. Only the minimum data to meet the current and future needs of NOAA Fisheries' fisheries management are requested under this collection.

6. Describe the consequences to the Federal program or policy activities if the collection is not conducted or is conducted less frequently.

If the collection is not conducted or is conducted less frequently, the Secretary cannot properly implement the limited access system. This would, in turn, prevent proper management of the wreckfish fishery as intended by the Council.

7. Explain any special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.

There are no special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.

8. Provide a copy of the PRA Federal Register notice that solicited public comments on the information collection prior to this submission. Summarize the public comments received in response to that notice and describe the actions taken by the agency in response to those comments. Describe the efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

A Federal Register Notice (copy attached) solicited public comment on this data collection. No comments were received.

All aspects of this data collection program were considered by the Council. Furthermore, comments and suggestions from fishermen are routinely submitted, reviewed, and considered as part of the Council process. Experience with this process, provides a continual feedback mechanism to NOAA Fisheries on issues and concerns to the respondents. The IFQ concept did not raise an unusual amount of controversy during the Council development process. There are no major problems that have not been resolved.

9. Explain any decisions to provide payments or gifts to respondents, other than remuneration of contractors or grantees.

There are no payments or other remunerations to respondents.

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation, or agency policy.

CFR 622.15 requires that the shareholder's name, address, and number of shares be reported to the industry. Based on recent court decisions, the Freedom of Information Act serves as the basis for release of confidential name and address information via a NOAA Internet website for informational purposes. All other data submitted will be handled as confidential material in accordance with NOAA Administrative Order 216-100, Protection of Confidential Fishery Statistics.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

The only question that could be deemed sensitive is the value paid for the shares. Values are confidential and only released in aggregate form. This information is necessary for economic analysis for the purpose of managing the ITQ. No one has ever objected to providing any of the information on the form.

12. Provide an estimate in hours of the burden of the collection of information.

The total estimated burden hours for this submission is 1.00. This is based on each of the four applicants needing an average of 0.25 hours to provide the information.

13. Provide an estimate of the total annual cost burden to the respondents or record-keepers resulting from the collection.

Public cost for each application is estimated at \$40 in transfer administrative fees. The total cost for the expected 4 sales transactions is \$160. In addition, the public pays mailing costs for the various responses. Those mailing costs are estimated at \$.37 average per each of the responses. Therefore, the estimated total annual cost to the public is \$161.

14. Provide estimates of annualized cost to the Federal government.

There will be no cost to the Federal government from this collection. The regulations provide for the collection of a fee to cover the administrative cost of executing the transaction. The amount of the fee is calculated in accordance with the procedures of the NOAA Finance Handbook for determining the costs of each special product or service provided by NOAA to non-federal recipients. The fee may not exceed such costs and is specified on each application form.. It is estimated that a fee of \$40 will be collected for each sales transaction

15. Explain the reasons for any program changes or adjustments reported in Items 13 or 14 of the OMB 83-I.

There are no program changes or adjustments, and therefore no changes in burden hours and costs. This request represents the continuation of an ongoing program.

16. For collections whose results will be published, outline the plans for tabulation and publication.

The results from this collection are not planned for statistical publication.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons why display would be inappropriate.

The OMB number will be displayed.

18. Explain each exception to the certification statement identified in Item 19 of the OMB 83-I.

There are no exemptions to the certification statement identified in Item 19 of OMB 83-I.

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

The collection does not employ statistical methods at present.

Certificate No. 999

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION
National Marine Fisheries Service

This is to Certify that Xxx X, and Xxxx X. Xxxx
Joint Tenants with Right of Survivorship, are the owners of percentage
shares of the Wreckfish Fishery transferable only on the books of the
National Marine Fisheries Service, Southeast Region, by the holders hereof
upon surrender of this certificate properly endorsed.

Witness, the signatures of its duly authorized officers.

Transfer Agent

Regional Administrator

Date

For the value of \$ _____, I (we) hereby sell, assign and transfer unto:

Name(s): _____

(As will appear on the certificate)

Address: _____

City/State/Zipcode: _____

Employer ID No.: _____

Telephone Number: _____

_____ percentage shares represented by the within certificate and do hereby irrevocably constitute and appoint the Transfer Agent to transfer the said shares on the books of the National Marine Fisheries Service, Southeast Region.

_____ Buyer's Signature	_____ Position
----------------------------	-------------------

_____ Additional Buyer, if held jointly	_____ Position
--	-------------------

_____ Seller's Signature	_____ Position
-----------------------------	-------------------

_____ Additional Seller, if held jointly	_____ Position
---	-------------------

	_____ Signature of First Witness
--	-------------------------------------

In the presence of

	_____ Signature of Second Witness
--	--------------------------------------

Any or all share certificates previously issued in the name of any Buyer(s) named above must be enclosed herewith for reissue pursuant to this transfer.

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other suggestions for reducing this burden to Robert A. Sadler, National Marine Fisheries Service, F/SER22, 9721 Executive Center Drive N., St. Petersburg, FL 33702.

The National Marine Fisheries Service requires this information for the conservation and management of marine fishery resources. The data reported will be used to develop, implement, and monitor fishery management activities for a variety of other uses. Responses to this collection are required to obtain or retain a fisheries permit under the Magnuson - Stevens Act. CFR 622.15 requires that the shareholder's name, address, and number of shares be reported to the industry. Name and address information will be distributed via a NOAA Internet website for informational purposes. All other data submitted will be handled as confidential material in accordance with NOAA Administrative Order 216-100, Protection of Confidential Fishery Statistics. Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subjected to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

(b) When notified in writing by the SRD that his or her vessel has been selected to carry an NMFS-approved observer, an owner or operator must advise the SRD in writing not less than 5 days in advance of each trip of the following:

(1) Departure information (port, dock, date, and time).

(2) Expected landing information (port, dock, and date).

(c) An owner or operator of a vessel on which a NMFS approved observer is embarked must:

(1) Provide accommodations and food that are equivalent to those provided to the crew.

(2) Allow the observer access to and use of the vessel's communications equipment and personnel upon request for the transmission and receipt of messages related to the observer's duties.

(3) Allow the observer access to and use of the vessel's navigation equipment and personnel upon request to determine the vessel's position.

(4) Allow the observer free and unobstructed access to the vessel's bridge, working decks, holding bins, weight scales, holds, and any other space used to hold, process, weigh, or store golden crab.

(5) Allow the observer to inspect and copy the vessel's log, communications logs, and any records associated with the catch and distribution of golden crab for that trip.

[61 FR 43957, Aug. 27, 1996, as amended at 63 FR 57590, Oct. 28, 1998]

Subpart B—Effort Limitations

§ 622.15 Wreckfish individual transferable quota (ITQ) system.

The provisions of this section apply to wreckfish in or from the South Atlantic EEZ.

(a) *Percentage shares.* (1) In accordance with the procedure specified in the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region, percentage shares of the quota for wreckfish have been assigned. Each person has been notified by the RA of his or her percentage share and shareholder certificate number.

(2) All or a portion of a person's percentage shares may be transferred to another person. Transfer of shares must be reported on a form available from the RA. The RA will confirm, in writing, each transfer of shares. The effective date of each transfer is the confirmation date provided by the RA. The confirmation date will normally be not later than 3 working days after receipt of a properly completed transfer form. A fee is charged for each transfer of shares. The amount of the fee is calculated in accordance with the procedures of the NOAA Finance Handbook, available from the RA, for determining the administrative costs of each special product or service provided by NOAA to non-Federal recipients. The fee may not exceed such costs and is specified with each transfer form. The appropriate fee must accompany each transfer form.

(b) *Lists of wreckfish shareholders and permitted vessels.* Annually, on or about March 1, the RA will provide each wreckfish shareholder with a list of all wreckfish shareholders and their percentage shares, reflecting share transactions on forms received through February 15. Annually by April 15, the RA will provide each dealer who holds a dealer permit for wreckfish, as required under § 622.4(a)(4), with a list of vessels for which wreckfish permits have been issued, as required under § 622.4(a)(2)(vii). Annually, by April 15, the RA will provide each wreckfish shareholder with a list of dealers who have been issued dealer permits for wreckfish. From April 16 through January 14, updated lists will be provided when required. Updated lists may be obtained at other times or by a person who is not a wreckfish shareholder or wreckfish dealer permit holder by written request to the RA.

(c) *ITQs.* (1) Annually, as soon after March 1 as the TAC for wreckfish for the fishing year that commences April 16 is known, the RA will calculate each wreckfish shareholder's ITQ. Each ITQ is the product of the wreckfish TAC, in round weight, for the ensuing fishing year, the factor for converting round weight to eviscerated weight, and each wreckfish shareholder's percentage share, reflecting share transactions reported on forms received by the RA

through February 15. Thus, the ITQs will be in terms of eviscerated weight of wreckfish.

(2) The RA will provide each wreckfish shareholder with ITQ coupons in various denominations, the total of which equals his or her ITQ, and a copy of the calculations used in determining his or her ITQ. Each coupon will be coded to indicate the initial recipient.

(3) An ITQ coupon may be transferred from one wreckfish shareholder to another by completing the sale endorsement thereon (that is, the signature and shareholder certificate number of the buyer). An ITQ coupon may be possessed only by the shareholder to whom it has been issued, or by the shareholder's employee, contractor, or agent, unless the ITQ coupon has been transferred to another shareholder. An ITQ coupon that has been transferred to another shareholder may be possessed only by the shareholder whose signature appears on the coupon as the buyer, or by the shareholder's employee, contractor, or agent, and with all required sale endorsements properly completed.

(4) Wreckfish may not be possessed on board a fishing vessel—

(i) In an amount exceeding the total of the ITQ coupons on board the vessel;

(ii) That does not have on board a commercial vessel permit for wreckfish, as required under § 622.4(a)(2)(vii); or

(iii) That does not have on board logbook forms for that fishing trip, as required under § 622.5(a)(1)(iv)(B).

(5) Prior to termination of a trip, a signature and date signed must be affixed in ink to the "Fisherman" part of ITQ coupons in denominations equal to the eviscerated weight of the wreckfish on board. The "Fisherman" part of each such coupon must be separated from the coupon and submitted with the logbook forms required by § 622.5(a)(1)(iv)(B) for that fishing trip.

(6) The "Fish House" part of each such coupon must be given to the dealer to whom the wreckfish are transferred in amounts totaling the eviscerated weight of the wreckfish transferred to that dealer. A wreckfish may be transferred only to a dealer who

holds a dealer permit for wreckfish, as required under § 622.4(a)(4).

(7) A dealer may receive a wreckfish only from a vessel for which a commercial permit for wreckfish has been issued, as required under § 622.4(a)(2)(vii). A dealer must receive the "Fish House" part of ITQ coupons in amounts totaling the eviscerated weight of the wreckfish received; enter the permit number of the vessel from which the wreckfish were received, enter the date the wreckfish were received, enter the dealer's permit number, and sign each such "Fish House" part; and submit all such parts with the dealer reports required by § 622.5(c)(5)(i).

(8) An owner or operator of a vessel and a dealer must make available to an authorized officer all ITQ coupons in his or her possession upon request.

(d) *Wreckfish limitations.* (1) A wreckfish taken in the South Atlantic EEZ may not be transferred at sea, regardless of where the transfer takes place; and a wreckfish may not be transferred in the South Atlantic EEZ.

(2) A wreckfish possessed by a fisherman or dealer shoreward of the outer boundary of the South Atlantic EEZ or in a South Atlantic coastal state will be presumed to have been harvested from the South Atlantic EEZ unless accompanied by documentation that it was harvested from other than the South Atlantic EEZ.

(3) A wreckfish may be offloaded from a fishing vessel only between 8 a.m. and 5 p.m., local time.

(4) If a wreckfish is to be offloaded at a location other than a fixed facility of a dealer who holds a dealer permit for wreckfish, as required under § 622.4(a)(4), the wreckfish shareholder or the vessel operator must advise the NMFS, Office of Enforcement, Southeast Region, St. Petersburg, FL, by telephone (1-800-853-1964), of the location not less than 24 hours prior to offloading.

[61 FR 34934, July 3, 1996, as amended at 64 FR 59126, Nov. 2, 1999]

§ 622.16 Red snapper individual transferable quota (ITQ) system.

The ITQ system established by this section will remain in effect through March 31, 2000, during which time

Magnuson-Stevens Fishery Conservation and Management Act

Public Law 94-265

As amended through October 11, 1996

SEC. 303. CONTENTS OF FISHERY MANAGEMENT PLANS 16 U.S.C. 1853

95-354, 99-659, 101-627, 104-297

(a) REQUIRED PROVISIONS.--Any fishery management plan which is prepared by any Council, or by the Secretary, with respect to any fishery, shall--

(1) contain the conservation and management measures, applicable to foreign fishing and fishing by vessels of the United States, which are--

(A) necessary and appropriate for the conservation and management of the fishery to prevent overfishing and rebuild overfished stocks, and to protect, restore, and promote the long-term health and stability of the fishery;

(B) described in this subsection or subsection (b), or both; and

(C) consistent with the national standards, the other provisions of this Act, regulations implementing recommendations by international organizations in which the United States participates (including but not limited to closed areas, quotas, and size limits), and any other applicable law;

(2) contain a description of the fishery, including, but not limited to, the number of vessels involved, the type and quantity of fishing gear used, the species of fish involved and their location, the cost likely to be incurred in management, actual and potential revenues from the fishery, any recreational interest in the fishery, and the nature and extent of foreign fishing and Indian treaty fishing rights, if any;

(3) assess and specify the present and probable future condition of, and the maximum sustainable yield and optimum yield from, the fishery, and include a summary of the information utilized in making such specification;

(4) assess and specify--

(A) the capacity and the extent to which fishing vessels of the United States, on an annual basis, will harvest the optimum yield specified under paragraph (3),

(B) the portion of such optimum yield which, on an annual basis, will not be harvested by fishing vessels of the United States and can be made available for foreign fishing, and

(C) the capacity and extent to which United States fish processors, on an annual basis, will process that portion of such optimum yield that will be harvested by fishing vessels of the United States;

(5) specify the pertinent data which shall be submitted to the Secretary with respect to commercial, recreational, and charter fishing in the fishery, including, but not limited to, information regarding the type and quantity of fishing gear used, catch by species in numbers of fish or weight thereof, areas in which fishing was engaged in, time of fishing, number of hauls, and the estimated processing capacity of, and the actual processing capacity utilized by, United States fish processors;

(6) consider and provide for temporary adjustments, after consultation with the Coast Guard and persons utilizing the fishery, regarding access to the fishery for vessels otherwise prevented from harvesting because of weather or other ocean conditions affecting the safe conduct of the fishery; except that the adjustment shall not adversely affect conservation efforts in other fisheries or discriminate among participants in the affected fishery;

(7) describe and identify essential fish habitat for the fishery based on the guidelines established by the Secretary under section 305(b)(1)(A), minimize to the extent practicable adverse effects on such habitat caused by fishing, and identify other actions to encourage the conservation and enhancement of such habitat;

(8) in the case of a fishery management plan that, after January 1, 1991, is submitted to the Secretary for review under section 304(a) (including any plan for which an amendment is submitted to the Secretary for such review) or is prepared by the Secretary, assess and specify the nature and extent of scientific data which is needed for effective implementation of the plan;

(9) include a fishery impact statement for the plan or amendment (in the case of a plan or amendment thereto submitted to or prepared by the Secretary after October 1, 1990) which shall assess, specify, and describe the likely effects, if any, of the conservation and management measures on--

(A) participants in the fisheries and fishing communities affected by the plan or amendment; and

(B) participants in the fisheries conducted in adjacent areas under the authority of another Council, after consultation with such Council and representatives of those participants;

(10) specify objective and measurable criteria for identifying when the fishery to which the plan applies is overfished (with an analysis of how the criteria were determined and the relationship of the criteria to the reproductive potential of stocks of fish in that fishery) and, in the case of a fishery which the Council or the Secretary has determined is approaching an overfished condition or is overfished, contain conservation and management measures to prevent overfishing or end overfishing and rebuild the fishery;

(11) establish a standardized reporting methodology to assess the amount and type of bycatch occurring in the fishery, and include conservation and management measures that, to the extent practicable and in the following priority--

(A) minimize bycatch; and

(B) minimize the mortality of bycatch which cannot be avoided;

(12) assess the type and amount of fish caught and released alive during recreational fishing under catch and release fishery management programs and the mortality of such fish, and include conservation and management measures that, to the extent practicable, minimize mortality and ensure the extended survival of such fish;

(13) include a description of the commercial, recreational, and charter fishing sectors which participate in the fishery and, to the extent practicable, quantify trends in landings of the managed fishery resource by the commercial, recreational, and charter fishing sectors; and

(14) to the extent that rebuilding plans or other conservation and management measures which reduce the overall harvest in a fishery are necessary, allocate any harvest restrictions or recovery benefits fairly and equitably among the commercial, recreational, and charter fishing sectors in the fishery.

97-453, 99-659, 101-627, 102-251, 104-297

(b) DISCRETIONARY PROVISIONS.--Any fishery management plan which is prepared by any Council, or by the Secretary, with respect to any fishery, may--

(1) require a permit to be obtained from, and fees to be paid to, the Secretary, with respect to--

(A) any fishing vessel of the United States fishing, or wishing to fish, in the exclusive economic zone [or special areas,]* or for anadromous species or Continental Shelf fishery resources beyond such zone [or areas]*;

(B) the operator of any such vessel; or

(C) any United States fish processor who first receives fish that are subject to the plan;

(2) designate zones where, and periods when, fishing shall be limited, or shall not be permitted, or shall be permitted only by specified types of fishing vessels or with specified types and quantities of fishing gear;

(3) establish specified limitations which are necessary and appropriate for the conservation and management of the fishery on the--

(A) catch of fish (based on area, species, size, number, weight, sex, bycatch, total biomass, or other factors);

(B) sale of fish caught during commercial, recreational, or charter fishing, consistent with any applicable Federal and State safety and quality requirements; and

(C) transshipment or transportation of fish or fish products under permits issued pursuant to section 204;

(4) prohibit, limit, condition, or require the use of specified types and quantities of fishing gear, fishing vessels, or equipment for such vessels, including devices which may be required to facilitate enforcement of the provisions of this Act;

(5) incorporate (consistent with the national standards, the other provisions of this Act, and any other applicable law) the relevant fishery conservation and management measures of the coastal States nearest to the fishery;

(6) establish a limited access system for the fishery in order to achieve optimum yield if, in developing such system, the Council and the Secretary take into account--

- (A) present participation in the fishery,
- (B) historical fishing practices in, and dependence on, the fishery,
- (C) the economics of the fishery,
- (D) the capability of fishing vessels used in the fishery to engage in other fisheries,
- (E) the cultural and social framework relevant to the fishery and any affected fishing communities, and
- (F) any other relevant considerations;

(7) require fish processors who first receive fish that are subject to the plan to submit data (other than economic data) which are necessary for the conservation and management of the fishery;

(8) require that one or more observers be carried on board a vessel of the United States engaged in fishing for species that are subject to the plan, for the purpose of collecting data necessary for the conservation and management of the fishery; except that such a vessel shall not be required to carry an observer on board if the facilities of the vessel for the quartering of an observer, or for carrying out observer functions, are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized;

(9) assess and specify the effect which the conservation and management measures of the plan will have on the stocks of naturally spawning anadromous fish in the region;

(10) include, consistent with the other provisions of this Act, conservation and management measures that provide harvest incentives for participants within each gear group to employ fishing practices that result in lower levels of bycatch or in lower levels of the mortality of bycatch;

(11) reserve a portion of the allowable biological catch of the fishery for use in scientific research; and

(12) prescribe such other measures, requirements, or conditions and restrictions as are determined to be necessary and appropriate for the conservation and management of the fishery.

97-453, 104-297

(c) PROPOSED REGULATIONS.--Proposed regulations which the Council deems necessary or appropriate for the purposes of--

(1) implementing a fishery management plan or plan amendment shall be submitted to the Secretary simultaneously with the plan or amendment under section 304; and

(2) making modifications to regulations implementing a fishery management plan or plan amendment may be submitted to the Secretary at any time after the plan or amendment is approved under section 304.

Dated: June 25, 2003.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 062603B]

Proposed Information Collection; Comment Request; Information for Share Transfer in the Wreckfish Fishery

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before September 2, 2003.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Robert Sadler, 727-570-5326, or Robert.Sadler@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The individual transferable quota system in the wreckfish fishery is based on percentage shares. Persons holding shares may sell or otherwise transfer them to others, but information about the proposed transfer must first be provided to NOAA. The information is needed to manage the quota system, and information about the sales price is used in economic analyses.

II. Method of Collection

The information is submitted in paper form.

III. Data

OMB Number: 0648-0262.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations, individuals or households.

Estimated Number of Respondents: 4.

Estimated Time Per Response: 15 minutes.

Estimated Total Annual Burden

Hours: 1.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: June 25, 2003.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Science Advisory Board

AGENCY: Office of Oceanic and Atmospheric Research, NOAA, Commerce.

ACTION: Notice of open meeting.

SUMMARY: The Science Advisory Board (SAB) was established by a Decision Memorandum dated September 25, 1997, and is the only Federal Advisory Committee with responsibility to advise the Under Secretary of Commerce for Oceans and Atmosphere on long- and short-range strategies for research, education, and application of science to resource management. SAB activities and advice provide necessary input to

ensure that National Oceanic and Atmospheric Administration (NOAA) science programs are of the highest quality and provide optimal support to resource management.

Time and date: The meeting will be held Tuesday, July 15, 2003, from 10 a.m. to 5 p.m.; and Wednesday, July 16, 2003, from 8 a.m. to 4 p.m. These times and the agenda topics described below may be subject to change. Refer to the web page listed below for the most up-to-date meeting agenda.

Place: The meeting will be held both days at the Key Bridge Marriott Hotel, 1401 Lee Highway, Arlington, VA.

Status: The meeting will be open to public participation with a 30-minute time period set aside on Wednesday, July 16 for direct verbal comments or questions from the public. The SAB expects that public statements presented at its meetings will not be repetitive of previously submitted verbal or written statements. In general, each individual or group making a verbal presentation will be limited to a total time of five (5) minutes. Written comments (at least 35 copies) should be received in the SAB Executive Director's Office by July 3, 2003, to provide sufficient time for SAB review. Written comments received by the SAB Executive Director after July 3, 2003, will be distributed to the SAB, but may not be reviewed prior to the meeting date. Approximately thirty (30) seats will be available for the public including five (5) seats reserved for the media. Seats will be available on a first-come, first-served basis.

Matters to be considered: The meeting will include the following topics: (1) Updates on the Climate Change Science Plan, Interagency Climate Programs and the Earth Observing Summit, (2) Fiscal Year 2006 Program Priorities, (3) the NOAA Research Council, (4) the National Centers for Environmental Prediction, (5) the Consortium for Oceanographic Research and Education, (6) the NOAA Education Council, (7) Cooperative Science Centers at Minority Serving Institutions, (8) the SAB Review Panel Report on the Cooperative Institute for Marine and Atmospheric Sciences, and (9) public statements.

FOR FURTHER INFORMATION CONTACT: Dr. Michael Uhart, Executive Director, Science Advisory Board, NOAA, Rm. 11142, 1315 East-West Highway, Silver Spring, Maryland 20910. (Phone: 301-713-9121, Fax: 301-713-0163, e-mail: Michael.Uhart@noaa.gov); or visit the
